

Dear Parents,

We have many parties and celebrations throughout the school year which involve food and special treats. With so many children today being allergic to many different things, it makes it difficult to have a specific list of appropriate snacks. That being said, we are asking the parents of allergic children to keep a supply of snacks with their child's teacher for those occasions. Italian ices and ice pops are always a good option and may be kept in the freezer in the teacher's room as well.

Our general rule is that, NO food which has been brought in from the outside will be given to an allergic child, unless there is written permission from the parent. That permission must be specific to the occasion and the specific food which will be served.

Please feel free to call or stop by to discuss your situation with us at any time. Thank you for your cooperation.
