Dear Parents,

Happy New Year and welcome back. I hope your Christmas was wonderful and that the New Year will bring good health and much happiness to all of us. My only words of wisdom (if I have such a thing (is to suggest we all try to live our lives by following the simple quote at the top of this letter.

Phyllis and I want to thank you for your good wishes and kind remembrances for Christmas. You are always so thoughtful.

Again, let’s all have a happy 2020 filled with all good things and no snow!

Sincerely,

Sister Merris
