Nothing is Impossible with God

“ Can worrying about anything add a moment of life? If God can take care of the birds of the sky and plants of the field, surely God will take care of us.

Given the present challenges that we face, can worrying about this add a moment of life? Yet, we continue to worry.

Lord, forgive our weakness when we worry, for this challenges our trust in you.

Good and gracious God, help us to remember that like the birds of the sky and the plants of the field, you will take care of us.”

Dear Parents,

I hope you are all having a good summer and enjoying the beautiful, hot and humid days – oh, and the loss of power last week. What a crazy world!

Please read our Reopening Plan which is on our website. We continue to believe we will be back full time with most students, while others students will join us remotely from home. If for any serious reasons we have to adjust or abandon our original plan, we will go to a two days in, two days out by family groups, and Fridays are remote.

Please stay well, read the plan and pray.

Sincerely,

Sister Merris
